## Finisar Announces Third Quarter of Fiscal 2019 Financial Results

SUNNYVALE, Calif., Feb. 28, 2019 (GLOBE NEWSWIRE) -- Finisar Corporation (NASDAQ: FNSR), a global technology leader for subsystems and components for fiber optic communications, today announced financial results for third quarter of fiscal 2019, ended January 27, 2019. Finisar will not hold an earnings call, nor provide forward guidance for the fourth quarter of fiscal 2019 due to the previously announced proposed acquisition by II-VI Incorporated (NASDAQ: IIVI).

### COMMENTARY

"I am pleased to report that revenues again grew over the prior quarter and gross margins also improved over the prior quarter, primarily due to favorable product mix and continued focus on reducing manufacturing overhead," said Michael Hurlston, Finisar's Chief Executive Officer. "The combination of the above resulted in significant improvement in operating margins and profitability."

(a) In evaluating the operating performance of Finisar's business, Finisar management utilizes financial measures that exclude certain charges and credits required by U.S. generally accepted accounting principles, or GAAP, that are considered by management to be outside of Finisar's core ongoing operating results. A reconciliation of Finisar's non-GAAP financial measures to the most directly comparable GAAP measures, as well as additional related information, can be found under the heading "Finisar Non-GAAP Financial Measures" below.

#### Financial Statement Highlights for the Third Quarter of Fiscal 2019:

- Revenues increased by \$2.2 million, or 0.7%, compared to the second quarter of fiscal 2019 as the result of increased sales of wavelength selective switches and VCSEL arrays for 3D applications, partially offset by a decline in sales of 10G and lower transceivers.
- GAAP gross margin improved from 26.3% in the second quarter to 28.8% primarily due to favorable product mix and continued focus on reducing manufacturing overhead.
- Non-GAAP gross margin improved from 28.3% in the second quarter to 30.2%.
- GAAP operating margin improved from (1.3)% of revenue in the second quarter to 0.2% due to the combination of higher revenues and improved gross margins.
- Non-GAAP operating margin improved from 8.8% in the second quarter to 10.8%.
- During the quarter, the Company redeemed approximately \$257.7 million of convertible notes.

#### SAFE HARBOR UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This press release contains forward-looking statement concerning Finisar's expected financial performance. These statements are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on our current expectations, estimates, assumptions and projections about our business and industry, and the markets and customers we serve, and they are subject to numerous risks and uncertainties that may cause these forward-looking statements to be inaccurate. Finisar assumes no obligation to update any such forward-looking statements. Forward-looking statements involve risks and uncertainties which could cause actual results to differ materially from those projected. Examples of such risks include those associated with: the uncertainty of customer demand for Finisar's products; the rapidly evolving markets for Finisar's products and uncertainty regarding the development of these markets; Finisar's historical dependence on sales to a limited number of customers and fluctuations in the mix of products and customers in any period; ongoing new product development and introduction of new and enhanced products; the challenges of rapid growth followed by periods of contraction; intensive competition; the risk that our pending merger with II-VI does not close, due to the failure of one or more conditions to closing; uncertainty as to the market value of the II-VI merger consideration to be paid in the merger; the risk that required governmental or stockholder approvals of the merger (including China antitrust approval) will not be obtained or that such approvals will be delayed beyond current expectations; the risk of litigation in respect of either Finisar or II-VI or the merger; disruption from the merger making it more difficult to maintain our customer, supplier, key personnel and other strategic relationships. Further information regarding these and other risks relating to Finisar's business is set forth in Finisar's annual report on Form 10-K (filed June 15, 2018) and quarterly SEC filings.

#### FINISAR NON-GAAP FINANCIAL MEASURES

In addition to reporting financial results in accordance with U.S. generally accepted accounting principles, or GAAP, Finisar provides the following financial measures defined as non-GAAP financial measures by the Securities and Exchange Commission: non-GAAP gross profit, non-GAAP operating income, non-GAAP income and non-GAAP net income per share. These non-GAAP financial measures are supplemental information regarding Finisar's operating performance on a non-GAAP basis that excludes certain gains, losses and charges of a non-cash nature or that occur relatively infrequently and/or that management considers to be outside of our ongoing core operating results. Management believes that tracking non-GAAP gross profit, non-GAAP operating income, non-GAAP net income and non-GAAP net income per share provides management and the investment community with valuable insight into our ongoing core current operations, our ability to generate cash and the underlying business trends that are affecting our performance. These non-GAAP measures are used by both management and our Board of Directors, along with the comparable GAAP information, in evaluating our current performance and planning our future business activities. In particular, management finds it useful to exclude non-cash charges in order to better correlate our operating activities with our ability to generate cash from operations and to exclude certain cash charges as a means of more accurately predicting our liquidity requirements. We believe that these non-GAAP measures, when used in conjunction with our GAAP financial information, also allow investors to better evaluate our financial performance in comparison to other periods and to other companies in our industry.

In calculating non-GAAP gross profit in this release, we have excluded the following items from cost of revenues in applicable periods in this release:

- Amortization of acquired technology (non-cash charges related to technology obtained in acquisitions);
- Stock-based compensation expense (non-cash charges);
- Impairment of long-lived/intangible assets (non-cash charges);
- Reduction in force costs and other restructuring charges (non-core cash charges);
- Acquisition related retention payments (non-core cash charges); and
- Inventory write-off related to discontinued products (non-cash charges).

In calculating non-GAAP operating income in this release, we have excluded the same items to the extent they are classified as operating expenses, and have also excluded the following items in applicable periods in this release:

- Discontinued product services fee (non-core cash charges);
- Acquisition related costs (non-core cash charges);
- Litigation settlements and resolutions and related costs (non-core cash charges);
- Amortization of purchased intangibles (non-cash charges); and
- Start-up cash costs related to our Sherman VCSEL fab until we begin commercial production.

In calculating non-GAAP income and non-GAAP income per share in this release, we have also excluded the following items in applicable periods in this release:

- Imputed interest expenses on convertible debt (non-cash charges);
- Imputed interest related to restructuring (non-cash charges);
- Other interest income (non-core benefits);
- Gains and losses on sales of assets and other miscellaneous (non-cash losses and cash gains related to the periodic disposal of assets no longer required for current activities);
- Loss (gain) related to minority investment (non-core charges or benefits);
- Dollar denominated foreign exchange transaction losses (gains) (non-cash charges or benefits); and

- Amortization of debt issuance costs (non-cash charges).

In addition, in this release we have adjusted non-GAAP income and non-GAAP income per share for the difference between GAAP income taxes and non-GAAP income taxes.

A reconciliation of this non-GAAP financial information to the corresponding GAAP information is set forth below:
