## Anders Olsson to Speak at the Optoelectronics Industry Development Association (OIDA) Opening Forum

### OIDA Presents the First of Three DARPA-Sponsored Forums Bringing Together Visionaries to Define Issues and Clarify Trends for the Optoelectronic Industries

SUNNYVALE, CA, Aug 28, 2007 (MARKET WIRE via COMTEX News Network) --

What: Anders Olsson, Vice President of Engineering, Finisar Corporation (NASDAQ: FNSR), will address the Optoelectronics Industry Development Association in the inaugural forum, "Perspectives on the Optoelectronics Industry: Advances, Challenges and Growth Opportunities."

When/Where: September 11 - 12, 2007 at the Doubletree Hotel, San Jose, CA

Presentation Details: Day One will explore the Optoelectronics Industry as it applies to the Communications sector. Anders Olsson joins other industry luminaries on a panel that will discuss the Components industry. This panel session will take place on Tuesday, September 11 from 1:30 - 2:15 p.m.

Event Details: "Perspectives on the Optoelectronics Industry" is the opening of three DARPA-sponsored forums, with a focus on industry advances, challenges and growth opportunities. The industry will be divided into six applications sectors: communications, computer/interconnect, consumer/personal, industrial/medical, defense/home security and transportation. Important developments will be highlighted in each sector. Open discussions and breakout sessions will enable high-level dialogue on industry advances and directions.

Registration: Registration for the OIDA Forum is open and can be accessed online at:
